**Priest Says He Has Cancer Specific**  
Father Rossetti, of San Francisco, Announces His Discovery.  
He Has Triumphed Where Licensed Doctors Have Failed.  
Gives Medicine to the World as Tribute to a Dead Friend.

BY DIRECT WIRE TO THE TIMES.  
SAN FRANCISCO BUREAU OF THE TIMES, Jan. 22.—(Exclusive Dispatch.) A sermon, said to have caused several cases of exterior cancer, and to have been beneficial in every case where it has been tried, was given by the Rev. Father Rossetti, S. J., and Prof. Thomas Powers, both of the chemistry department of St. Ignace University, at the announcement is made as the result of two years of labor together and longer efforts attending their collaboration.  
Father Rossetti stated at the close of the afternoon that as less than a half-dozen cases of cancer, pronounced incurable by local physicians, had been cured by the administration of the serum under the direction of the discoverers.

**DREAM GIVES WIFE AWAY.**

**Vision Verified, the Husband Says, by Visit to Paris.**

LA. P. NIGHT WIRE TO THE TIMES.  
NEW YORK, Jan. 22.—A dream to vivid that its truth could not be doubted, caused Charles Grellet to sue today for an annulment of his marriage seven years ago. On the witness stand, Grellet said he dreamed he met his wife in Paris with another man whom she introduced as her husband. When he awoke and asked his wife about the dream, her replies aroused his suspicions and he went abroad to see if his vision were true. The records in Paris, Grellet testified, showed that his wife had been married there in 1906 to Victor Cousin, who is living. The case was undefended. Justice Brieger reserved decision.

isolating the germ which causes the disease, but have, nevertheless, found an injection which eliminates the cancer bacilli from the blood—at least in all the cases we have encountered up to date."  
Behind the story of the search of the scientists for a cure, is a story of friendship and parting through death. Several years ago Father Rossetti lost a dear friend, known in the order as Father Kenna, through a cancerous affliction. Father Kenna's suffering and painful death made Father Rossetti resolve to devote his talents to the great task of finding a cure for cancer, if possible. Prof. Powers also was started upon his investigation through the death of a friend from cancer. Prof. Powers has been experimenting for five years.

**SUCCESS IN LUPUS CASES.**

"Our treatment has been successful in cases of catarrh cancer and lupus only," said Father Rossetti. "We have not undertaken cases of cancer of the stomach or other interior parts, because we are convinced that to cure the cancer itself would not be of any benefit because the parts eaten away could not be restored."  
The cases which the investigators claim to have cured were sent to them by prominent physicians in the city.

ROUGH RIDING  
IN GUM SHOES.Roosevelt Nosing Quietly in  
to Garment Strike.Twenty-four Arrests Made in  
Astor Place Riot.Reserves Called to Quell the  
Disturbance.

BY FEDERAL (WIRELESS) LINE TO THE

NEW YORK BUREAU OF THE TIMES, Jan. 21.—[Special Dispatch.]—Roosevelt called a halt in his investigation of the strike of the white goods makers, but it was known that he was obtaining information on the subject today. Roosevelt was in the city with several men interested in labor problems, among them Dr. Henry MacCort, a director of the American branch of the Ethical Culture Society, who is a member of the board of directors of the United States in the peace process. Roosevelt did not limit himself to the arbitration of the strike.

It was announced after a conference between Samuel Florman, president of the Dress and Waist Manufacturers Association, and John D. Rockefeller, secretary-treasurer of the National Ladies' Garment Union, that it had been decided to begin negotiations against manufacturers who were alleged to have said he had been refused a hearing for setting the union.

For the first time since the strike began, a conference in which the representatives of the contractors took part was held tonight at the Bar Astor. The principle of arbitration was agreed upon, but the representatives of the union decided to refuse to have the matter settled in a court of law. Another conference will be held tomorrow.

Disturbances occurred at three locations, resulting from demonstrations by garment strikers. Twenty-four arrests were made at Fifth Avenue and at Fourth street near Fourth Avenue.

The curfew from four police stations was called out and medical aid was needed in a number of cases. In clashes between police and strikers, several workers were injured and several strikers were arrested. One of the clashes with the police occurred at South Seventh street, where strikers were accompanying Mrs. Wendell, the wife of the mayor.

At South Seventh street, where strikers were accompanying Mrs. Wendell, the wife of the mayor, a man was injured. He was a gang attacked him.

National Railroad That Up, But Government Troops Prevented Northward on Construction Train.

BY A. P. MOUNT WIRE TO THE TIMES. SAN LUIS POTOSI (Mex.), Jan. 22.—[Special Dispatch.]—A number of trains on the National Railroad were stopped at night near Santa Elena, south of Mexico City, where a strike of the railroad men was in progress. A body of federal troops is marching north on board of a construction train.

EXCLUSION OF CASTRO  
PRECEDENT FOR ZELAYA.

Government's Recent Action in Barring Ex-Venezuelan President Designed to Be More Far-Reaching Than Supposed, the Intention Being to Bar Other Revolutionists and Trouble-makers.

BY SUMNER CURTIS.

WASHINGTON BUREAU OF THE TIMES, Jan. 22.—[Special Dispatch.]—It has been learned that the government's recent action in barring the door of the United States to Cipriano Castro, late of Venezuela, was designed to be more far-reaching than has appeared on the surface.

Officials of the State Department have stated their belief that Latin American revolutionists in general are preparing for work at their old Washington headquarters. The current of the revolution in Latin America is being stirred up by the world war, and the government is taking steps to bar the door of the United States to such revolutionists.

Tranquility in other words has been largely the result of "dollar diplomacy." It is declared that should the government of the United States be forced to reverse its policy under President Wilson, it would be forced to look to the United States for aid. The government is taking steps to bar the door of the United States to such revolutionists.

## Free Toll Defended.

(Continued from First Page.)

benefit of the United States and affecting the people of the United States must first be approved by a foreign power.

NEWLAND BLAMES RAILROADS. The charges that Canadian railroads were back of the whole protest against free tolls for American shipping were made by Senator Newland of Nevada on the floor of the Senate. He asserted that the transcontinental railroads were trying with the aid of the Canadian railroads to "paralyze the canal."

He said that American railroads first tried to prevent the construction of the canal, then they tried to prevent the operation of the canal. He said that the railroads had been trying to "paralyze the canal" by "monopolizing the transportation of goods."

"This activity," he declared, "had been followed by a Canadian appeal to the British government. Had it not been for the railroads of Canada," he stated, "England would never have made any protest against the free tolls for American shipping."

Senator Newland was a third speaker in the debate on the amendment to the canal bill. He was followed by Senator McPherson of California, who also spoke in support of the amendment.

AMERICAN REPLY. Details of the note of the United States in reply to the British protest against the Panama Canal act will be announced simultaneously in London and Washington tomorrow at 4 o'clock, according to a statement of the Secretary of State today.

The note was mailed last Saturday and in addition the act was mailed to the American embassy in London. The note was mailed to the American embassy in London.

Mr. Gray is already in possession of the note according to advices from London. The American charge in London, Mr. Gray, is expected to be in London tomorrow.

It is believed here that the British Foreign Secretary will expedite his reply to the note and that the note will be in the hands of the British Foreign Secretary tomorrow.

It is believed here that the British Foreign Secretary will expedite his reply to the note and that the note will be in the hands of the British Foreign Secretary tomorrow.

Word "or" in Law, Mr.

Him Change His Mind

Declares He Is Finding

Before the People

But for a Time State

Two Mineralogists

OF A. P. MOUNT WIRE TO THE TIMES.

SAN FRANCISCO, Jan. 22.—[Special Dispatch.]—The word of two mineralogists, who had been determined to resign today, has been changed.

The mineralogists, who had been determined to resign today, have been changed. The mineralogists, who had been determined to resign today, have been changed.

The mineralogists, who had been determined to resign today, have been changed. The mineralogists, who had been determined to resign today, have been changed.

**THURSDAY MORNING.**  
**Happenings on the Pacific Slope.**  
**Reconsider.**  
**STORMS RESIGNS; HAMILTON IS IN.**  
"or" in Law, Makes Him Change His Mind.  
Before He Is Vindicated Before the People.  
for a Time State Had Two Mineralogists.  
SAN FRANCISCO, Jan. 27.—On the 28th of January, 1918, the resignation of Mr. J. M. Hamilton, mineralogist, was accepted by the State Board of Mineralogy. Mr. Hamilton, who had been in the office of the State Mineralogist since 1912, was succeeded by Mr. J. M. Hamilton, who had been in the office of the State Mineralogist since 1912.

**WALKER MAY ENTER.**  
State Building and Loan Commission Permitted to Get Into Office of Continental Association.  
SAN FRANCISCO, Jan. 27.—After an unsuccessful attempt to get permission from Chief of Police White to enter the office of the Continental Association, the State Building and Loan Commission today secured a ruling which permitted it to enter the office of the Continental Association. The commission, which is headed by Mr. J. M. Hamilton, is now in the office of the Continental Association, which is located in the State Building.

**DEATH'S GRIM WARNING NIL.**  
IN TRAGEDY WEAVING CHAIN OF PROMISES?  
Starts on Mission Bearing Ashes of Three Persons, Two of Whom Were Killed by Great Heaps While Trying to Find Word to First Six Years Ago.  
Defying what seems to have been a grim warning, F. G. Noyes of this city has started on a strange mission to Sago, Mo., bearing the ashes of three persons, Merwin E. Underwood, Charles H. Underwood, and Mrs. Charles H. Underwood.  
Despite the fact that death took two persons who tried to carry the ashes of the woman to Sago—her husband and his brother both being taken before their promises were fulfilled—Noyes is determined to at least try to keep a promise he made Merwin Underwood before the latter's death here.

**WOULD PLUNDER MORGUE.**  
Barfoot Tracks Found on Porch of House of Death and a Window Broken.  
A barefoot burglar who seems to labor under the impression that an undertaking establishment contains articles that can readily be converted to cash, is sought by the police. He tried Tuesday night to force an entrance into the Peck & Chase mortuary by breaking one of the heavy plate glass windows in the front door.  
The clatter of the falling glass must have frightened him away, for there are no evidences that he entered the place. Imprints of bare feet were found yesterday on the front porch.

**ANNUAL CHURCH MEETING.**  
At the annual meeting of the First Congregational Church, last night, the report of the treasurer showed that during the year 1917 the church had raised for current expenses \$11,445 for benevolence; \$14,000 paid on a purchase of additional property. During the year a gift of \$11,000 was received to the endowment fund of the church. The present membership was reported to be 214.  
The following new officers were elected: Deacons, W. H. Gibson, H. E. Storer, F. W. Bowdell; board of education, J. T. P. Abbott, E. F. Clark, George H. Clark, A. W. Mudd, E. F. Sanborn, W. E. Bartlett, Harry Shaw.

**MASSACHUSETTS SOCIETY.**  
A meeting of the Massachusetts Society was held on Tuesday night in Cleveland Hall, when an excellent program of music was given, and an address, delivered by Mrs. Anne Davis Thomas, on "Humanity, the Subject of the New Federation Home." They expect to give a Boston baked-bean supper on Washington's Birthday.

**Sooner or Later-- for It Is Inevitable**  
Some day there will be a genuine Pianola Player Piano go into your home to replace the instrument you now have. Your craving to produce music without years of study and practice will some day lead you to realize the world of musical possibilities one of these instruments will give you. The Pianola Player Piano with its wonderful expression devices, enables a mere novice to play with the skill and expression of a master musician.  
If you have a "silent" piano in your home, we will gladly take it in part payment on a Pianola Player Piano—the instrument that you and every member of your family can play.

**The Pianola Player Piano**  
There is but one genuine Pianola Player Piano. It is standard of the world and is made only by the Aeolian Company—and sold in this territory only by us.  
With the Pianola Music you can sit right down and play music that you like and play it with all the expression and art of the finished hand performer. Let us demonstrate these instruments for you and tell you about our liberal payment plan.

**California B-E-B-C Distributors**  
TENTH AND MAIN  
NEWTON GRESSER, SALES MANAGER  
**Fairfax Park**  
—FOR HOMES —FOR INVESTMENTS  
The best medium priced suburban homesites  
These lots will not be on the market long.  
Sales made at the opening last Sunday corroborate this statement. The reasons are very simple—  
**Lots Are Large—Prices Low—Only \$375 Up**  
FAIRFAX PARK is high and level, splendid soil, no adobe, perfect drainage.  
Improvements are good—graded and oiled streets, cement curbing and sidewalks; water piped to every lot.  
Located on the yellow car line, between Inglewood and Hawthorne, in the center of a locality where values have increased more than twenty-five per cent. per year for the past three years.  
The rate of increase per year from now on will be greater.  
The restrictions are sufficient to insure an artistic, substantial suburban residential district.  
**WE'LL BUILD FOR YOU.**  
If desired, a building clause will be added to your contract, stating that after \$150 or more has been paid on your lot, we'll build for you without further cash payment down, the only consideration being a slightly increased monthly payment.  
Go out today.  
Take yellow Hawthorne car on Spring street, get off at Neff Station, or come in and see us and we will take you out; but either way, go now. It costs nothing to investigate.

**Foley Furniture Co.**  
Wholesale and Retail.  
237-243 So. Los Angeles Street  
When you think of furniture—think of the rents other stores pay. We can save you one-third on your purchasing. Look first.

## EMBRACES WORLD IN STEEL TRUST.

Corey Admits an Agreement With Foreigners.

Roosevelt Tells How He Transcended the Law.

Finds Federal Processes Slower Than Strike.

(BY A. P. NIGHT WIRE TO THE TIMES.)  
NEW YORK, Jan. 21.—William H. Corey, former president of the United States Steel Corporation, a witness today in the Federal suit to dissolve the corporation under the Sherman anti-trust law, furnished the government with the first testimony it has been able to obtain in support of its allegation that the corporation participated in an international steel pool.

Roosevelt was examined at his editorial offices by Jacob M. Dickinson, former Secretary of War, chief counsel for the government in this case.

COREY TESTIFIES.

Mr. Corey testified in a room in a downtown office building. He said that as late as 1910 an understanding had existed with foreign rail manufacturers under which the steel corporation agreed not to compete with them in their own markets.

Foreign manufacturers in turn agreed not to seek business in the United States.

"It was understood," said Mr. Corey, "that competition should be restricted to neutral markets, countries which did not produce steel rails."

Whether in these markets there was an understanding with foreign producers as to prices and a division of territory, the witness professed ignorance.

"Was Mexico assigned to any one?" he asked.

"I don't know about that," Corey explained. "I had had little to do with making the arrangement."

Corey testified that he had had little to do with making the arrangement, but that he had gained his position in the corporation's then in charge of the corporation's export business, who has since succeeded Mr. Corey as president of the corporation.

Mr. Corey, he said, had made trips abroad to discuss the matter with the foreign manufacturers.

Corey testified as to the existence of a steel rail pool among American manufacturers as late as 1904, under which prices of rails were kept on an even keel and business divided. In this steel corporation participated, he said, and was represented at meetings by Charles M. Schwab, John Gary or himself.

Corey testified further that one of the reasons that the United States Steel Corporation was taken over by the United States Steel Corporation was that it was selling customers from the Carnegie company.

The United company, he said, had built twelve plants for the manufacture of steel by the open hearth process. As soon as the corporation obtained control, blast furnaces belonging to the Sharon company, a subsidiary of the United, had been dismantled.

Judge Dickinson read from the minutes of the Carnegie's steel company, a statement which showed the purchase of the Carnegie's steel company, a statement which showed the purchase of the Carnegie's steel company, a statement which showed the purchase of the Carnegie's steel company.

"Was the effect of the purchase to maintain the price?" asked the attorney.

"That was the object," said Mr. Corey.

"Was it the policy of the Carnegie company to buy iron for the purpose of maintaining the price of finished products?"

"At times the company did buy iron for that purpose."

HIS OWN PANIC.  
No matter what might have been the motives behind the United States Steel Corporation when it absorbed the Carnegie Steel and Iron Company, the witness testified that he was not aware of any such motives.

"Not one thing could have been known about the company which could have altered my action," he said emphatically. "I was dealing with a panic."

The witness was questioned nearly two hours. He clapped his hands and shouted when he stopped down.

At times he upbraided Judge Dickinson, accused for the government, for asking questions about "things I don't know," and complained, while counsel argued, that the hearing was duller than "the stone strike."

Asked about his testimony before the Stanley committee, the witness denied that he had been deceived by Nelson, Frick and Cary.

The hearing was adjourned after 11 o'clock. Col. Roosevelt was asked only one question by counsel for the government, namely, whether state-ments contained in a letter which he wrote to Altr-Gent, Secretary of the Carnegie Steel and Iron Company, were true. The witness replied in the affirmative.

R. V. Lindbergh, counsel for the steel corporation, then took up the cross-examination.

Roosevelt testified he was aware of the government's undertaking an investigation of the steel corporation before the T. C. & L. was taken over.

They reported to me unfavorably in regard to the Standard Oil, but favorably in regard to the steel corporation," he said.

Mr. Lindbergh called Roosevelt's attention to a letter in which Commissioner Garfield of the bureau of corporations said he did not know a single instance in which the steel corporation had refused information to the government. The witness said such was his understanding.

"I do not remember at what date the government was made acquainted with the operations of the steel corporation," he explained. "It was not until Mr. Garfield undertook his work as commissioner that I had any acquaintance with the corporation."

"You were familiar with these affairs when you had an interview with Garfield and Frick?"

"I was familiar with the investigation," replied the witness.

Mr. Lindbergh then read the witness's previous denial.

## MILLER CALLS DYNAMITERS TRAITORS AND BRIGANDS.

United States District Attorney Who Convicted Union Men Escoriates as Criminals Leaders of Organized Labor Who Use Unlawful Means to Carry on Strikes and Says Such Methods Must Be Wiped Out.

(BY FEDERAL (WIRELESS) LINE TO THE TIMES.)

CHICAGO BUREAU OF THE TIMES, Jan. 21.—(Special Dispatch.) United States District Attorney, Charles W. Miller, of Indianapolis, who conducted the prosecution at the Indiana capital of thirty-eight dynamiters, branded as traitors to the United States business agents and officials of labor unions who use or induce the use of force, dynamite or other unlawful means in connection with strikes, in a speech today before the Hamilton Club.

Prosecutor Miller had for his subject the question, "Are Trade Unionists Criminals?"

In his speech he told details and inside history of the dynamite conspiracy case. He branded the men convicted in Indianapolis as criminals who invaded the ranks of honest workmen, for criminal purposes, and warned members of labor organizations against such leaders.

WHAT MILLER SAID.

In part he said:

"A labor organization for the purpose of bettering by lawful means the condition of the workmen, which always proceeds within the law to protect the honest toiler, is a patriotic body doing patriotic work."

"A labor organization, however, which carries on a criminal warfare by the use of force, dynamite and the like, is guilty of rebellion against the government and treason which must be wiped out."

"The business agents, officials and leaders in labor organizations who do not keep within the law in their activities are not honest workmen, and do not represent the real toilers."

**DOLL'S HOUSE**  
RED MANS ON.

Hall Transplants a Little Parisian Flower.

Says He's Fulfilling Part of Father Only.

Wife Seeks Two-Thirds of Oil Man's Estate.

Charles Victor Hall and Rita Suetan, the pretty little Parisian flower girl named by Mrs. Hall in her suit for divorce, are living in a luxuriously-furnished mansion, recently purchased by the oil man at No. 2221 Ocean View avenue in the Nob Hill district. The French doll is surrounded by every luxury that could be bought by the money of her benefactor.

The existence of Hall's brilliant house was disclosed yesterday in the Harbor before Judge W. N. Telford in which Mrs. Hall's attorney, H. J. Goudge, is seeking to determine the identity and nature of Hall's holdings, valued at \$750,000, of which the wife is claiming two-thirds. The testimony was taken in the office of the Industrial Oil Company, of which Hall is president, in the Walter P. Story building.

The house in which Hall has taken the talented young woman to whom he is giving an education in art is in a fashionable neighborhood. The house is located well back from the street. A high wall, vine-covered, gives seclusion to the grounds.

**DREAM IN RED**  
The interior of the house is a dream in red. Everywhere that the eye turns is seen the warm, sensuous color. The carpet is red. The upholstery is red. The draperies are crimson. The red dress worn by

Georgia Philipps Bullock.

Of South Pasadena, who will be one of the first women criminal lawyers to practice exclusively in that field in this city.

**PSYCHOLOGY AND LAW.**

Wealthy Young Woman of Pasadena Gets a Shocking Willingness to be a Criminal Lawyer.

Georgia Philipps Bullock, daughter of ex-Judge and former Congressman William Craig Bullock of Kentucky, and a wealthy resident of South Pasadena, became a full-fledged criminal lawyer yesterday. Hitherto she has been a volunteer probation officer but proposes now to invade a field so far practically untouched by woman in the pursuit of the psychological study of crime.

She will appear before the bench without a hat. She will dress neatly and without any attempt at ornamentation. She will keep in the background her femininity and, while expecting the courteous treatment which her sex calls for, she will look for no favor from bench or bar on that account.

**Military View.**

**SEES YEARS OF RUIN AHEAD IN MEXICO.**

German Army Officer Sizes Up the Two Revolutions Now Going on and Says There's an Opportunity for a Man of Destiny—Neither Madero Nor Zapata a Real Commander.

THAT Mexico is hopelessly a stew in its own juice, and that the end of its chaotic state may not be reached for many heavy and ruinous years, is the opinion of Capt. Karl Meister von Volkenburg, who is with the Third Bavarian Army Corps of Germany at Nuremberg and who was sent by his government to make a study of the military situation in Mexico as a result of the unsettled condition in that country where German investments are second in importance only to those of the United States.

"I have just finished a three-month tour of Mexico," said Capt. von Volkenburg yesterday at the athletic club, where friends have put him up during his brief visit here, and he said that the Mexican situation is a study of the military situation in Mexico as a result of the unsettled condition in that country where German investments are second in importance only to those of the United States.

**FOR MAN OF DESTINY.**

"Never was there such an opportunity for a man of destiny as now exists in Mexico. The country has two genuine revolutionary movements. Orozco heads one in the State of Chihuahua and Zapata heads the other in the State of Mexico. Neither man is educated and neither is a real commander. They cannot organize their own forces nor is there any hope of their coming together. If they could overthrow Madero and ascend to the Presidency he would be but a barbarous military dictator of no comprehensive plan and the other would continue the war. Madero succeeded as well as he did because of a superior education, but out of the twenty generals who placed him in the President's chair not one supported him afterward, and they would not support or trust any one of their own number who might succeed in the future in wresting the Presidency from Madero. They almost never trust one another and they can hardly hope for the establishment of a permanent popular government while not more than 10 or 15 per cent of the population can read and write.

**CITY HARD TO TAKE.**

"It would be very difficult for the rebels to take Mexico City because it is occupied by 10,000 Federal troops. I suppose that Santa Monica or Watts could take Los Angeles if it was held by only 3000 men, but such an army represents tremendous organization in Mexico and no rebel general would think of attempting its overthrow. I doubt too, if Zapata has the arms or ammunition for such an undertaking, although he is strong and popular throughout the States of Morelos and Mexico, and virtually controls them.

"Madero consists for the greater part of large estates and a majority

of the people are scarcely better than slaves. They have nothing to lose and the owners of the estates pay Zapata liberally for their protection, so that he makes a good thing of it, and is in no hurry to have the issue closed. The Mexican is incapable of being definite and decisive blow is the last thing that is planned by either Zapata or Orozco.

"The republic is practically idle in many important districts, although affairs go along very well with Mexico City. The government has had silver mines at Pachuca and along the railroad between Laredo and Mexico City. It is whispered that the government is planning to take the mines with the rebels, but feels no security in this because the revolutionary leaders refuse to stay long.

**IN A BITTER PLIGHT.**

"Mexico's plight is bitter because it cannot exist without foreign capital and no outsider would dare spend any money there as long as the present situation continues. American and German capital received as much protection as Mexican investments, but this is not adequate in a country where even life is insecure. It would not seem so much a subject of criticism if either the government or the rebels, but these months of uncertainty and inaction are too much to stand.

"In Germany our military policy is revised every five years. Our present strength is usually slightly more than half a million men, not including officers, non-commissioned officers and one-year volunteers. As for war, the total fighting strength of the German nation, including the navy, can be raised to 11,000,000, but not more than 4,000,000 are trained and equipped. Our army is organized in twenty-three corps and is stationed in various provinces and States of the empire. Promotion in the German army is exceedingly slow and our senior captains sometimes have thirty years of service. We have about 35,000 active officers and about 84,000 non-commissioned officers.

**WILL TRY BERTHOLD.**

Detective to Take Impression of Finger Tips of Man Who Committed Suicide at Ocean Park.

Detective Brown of the District Attorney's staff announced yesterday that he will take the impression of the finger-tips of the man who committed suicide at Ocean Park last April and was buried by Mrs. Minta I. Jordan as her husband, E. W. Jordan, on whose insurance policies she collected \$3000.

**RETAIL CREDIT MEN MEET.**

The Los Angeles Retail Credit Men's Club met at dinner Tuesday evening at Christopher's, after which the members listened to an address by Newman Reed.

**TO COMPROMISE**  
TIDELAND SUIT.

Railway Ready to Meet City Says Paul Shoup.

Otherwise Deadlock for Both His Ultimatum.

Preliminary Report Sent to Citizens' Board.

Declaring the further development of the Los Angeles Harbor to be at a standstill so far as approaches are concerned, indicating the willingness of his company to meet the city in an equitable settlement of the disputed tideland and boulevard, and explaining that the tideland suit was commenced without the railroad company's being given any preliminary opportunity for compromise, President Shoup of the Pacific Electric yesterday closed the immediate testimony taken by the Harbor Investigating Committee, which adjourned to meet at the call of the chairman.

Before adjournment a resolution was unanimously adopted by the committee and sent by Mrs. Folz to the Harbor Revision Committee of the Citizens' Committee of One Thousand.

The resolution recommends the erection of a harbor district or zone to be placed entirely under the supervision of a board of three commissioners, said commissioners to be elected and to receive adequate salaries, the amount to be fixed by the Harbor Revision Committee; the office of the commission to be located at San Pedro. The zone should include, in the opinion of the committee, San Pedro, Wilmington and Terminal Island, together with sufficient territory on the main line to make possible the carrying out of a well-defined system of approach.

**PRESSING INVITATION.**

The committee has been unable to get into touch with Engineer Hamlin, whose testimony is required to clear up the matter of the contract for the fill and bulkhead for the municipal dock No. 1, and the difference between the cost of the municipal dock and the original estimate. These questions, the committee feels, reflect upon the engineering department until Hamlin sees fit to explain them away. Upon motion of H. S. McCullum a resolution was adopted by the committee when it reassembled will be sent. At this time the Harbor Revision Committee of the Citizens' Committee of One Thousand is expected to be ready, and it is also expected that Messrs. Gibbon and Hewitt will have returned to the city. The committee is the first meeting of the Harbor Revision Committee of the Citizens' Committee of One Thousand.

The investigating committee is a creature of the committee of One Thousand, and will make its final report direct to that organization. Its recommendations that harbor affairs be turned over to a commission of three paid members is liable to create some argument, for there are some who favor a continuance of the present system of appointive commissioners with increased powers, thus making the office available for a few individuals who have the time and the means to serve.

It is on record as preferring taking the harbor control away from the people and continuing the appointment of the commissioners. It is said in the Harbor Revision Committee of the Citizens' Committee of One Thousand.

**"BEST IN THE WORLD."**  
Capt. Minner, who was in the United States navy for twenty-five years, and who has visited every large harbor in the world, declared that the Los Angeles Harbor is capable of being developed into the best harbor extant at a lower cost of construction, due to the fact that we have no great natural forces to contend with, no storms, no silt, no bar, and sufficient anchorage room to comfortably accommodate forty battleships of the dreadnought type, or 100 miscellaneous ships.

He said that there is not a single concrete pier in the harbor of New York; declared that the cutting away of the bank at the San Pedro Plaza would be cheaper and quicker than the working out the railroad right-of-way condemnation suits, and estimated that a boulevard 100 feet wide would be amply sufficient for the needs of motor trucks and railroad, or sixty feet for the trucks alone.

Speaking as president of the wharf company, he said that he favored a municipal railroad, but as a citizen and taxpayer he could see little need for such a line.

**WHY SHIPS DON'T COME.**  
Assuming that the Panama Canal will be opened in one year, Capt. Minner estimates that his company will then have 7000 feet of wharfage ready for use, with 5000 additional feet in course of construction and this will represent practically all the outer harbor wharfage available at that time. Municipal Dock No. 1 will not be finished within this time limit. Lack of adequate accommodations, the witness contended, is the probable reason for the dearth of applications for the use of the harbor.

He said that there is no quarantine station here. In the event of an insular ship being found infected it would be compelled to put to sea and head for San Diego or San Francisco. "That ship wouldn't come back," the witness said.

(Continued on Second Page.)

**HE "CALLS" ALEXANDER**  
FOR CHOKING HARBOR.

A MEETING of the sub-committee of fifteen of the Citizens' Committee of One Thousand, appointed to prepare and submit a draft of amendments deemed necessary to the present city charter, was held yesterday in the office of Black Brothers.

The subject before the committee was management of the harbor. A report was made favoring the appointment of three Harbor Commissioners, giving them exclusive control of the harbor and the harbor zone.

Joseph H. Call, who was elected temporary chairman of the meeting, favored electing the commissioners, and aired his feelings upon the subject of appointed boards. He scouted the idea that the delay in harbor work has been through the conflict of interlocking boards and said among other things:

"The choking of the harbor is worth \$20,000,000 a year to the railroad, which have been responsible for keeping it closed. I tried to get Alexander to put men on the commission who would do something but he refused to do it.

"When you put it up to Alexander he appoints his stenographer or typewriter—as he has done at the head of one of the most important commissions in the city. The whole delay is owing to Alexander's refusal to put efficient men on the commissions—nothing else.

"All these things are to be ruled either by a commission form of government or some other fool thing to take things out of the hands of the people. I am not willing to extend the power of any commission in this city that is appointive."

He declared that our harbor efforts

**DEADLOCK LIFTS LID**  
AT VERNON'S RESORT

THROUGH the deadlock in its Board of Trustees the city of Vernon was made to go on record yesterday in favor of all night light selling and by inference of the results thereof which, during the past few months, have provided a rising tide of business for surgeons and undertakers.

The vote was on the ordinance proposed on the initiative of City Attorney General Williams, which required the closing at 1:30 o'clock a. m. of all places where liquor is sold. President J. J. Furlong and Trustee Williams, who voted in favor of the ordinance, John D. Leonic, who favors its adoption, is in Sacramento. Charles Scheider, who made no opposition to the ordinance, is in Los Angeles. He happened to be present for the first time in several weeks refused to

**FLASH O' SILK.**  
STEEL, A SHOT.

**SAYS PLASTIC M. D. CHANGES**  
HER BLUE EYES.

Victimhood of Face-Leavender's Life Revealed When Los Angeles Woman Tells Him to El Paso, Asks Him for Fifty Thousand Automobile Loans.

Mrs. Cora Fox wanted to have the color of her eyes changed. She applied to Dr. Earl H. Coger, plastic surgeon, molder of human appearances, at his Broadway Central building office, where he conducted one of a chain of Earle Institutes.

Marvelous changes are worked by the arrival of the face-leavender there. In two minutes the woman manufacturer changed Mrs. Fox's blue eyes to black—with a couple of swift right hand strokes, according to her testimony in her own defense in an El Paso justice court yesterday.

She raised her skirts, drew from her silk stocking an automatic pistol and shot me on the back of the hand. Here's the hand. The face-molder offered the hand as evidence.

"He took all my money. In Los Angeles I gave him \$35 and \$40 and \$110 at different times," put in the woman. "I have a photo of a married Los Angeles woman who has paid Dr. Coger's fees."

Rapping vehemently for order, the court gavelled off the crux of the story.

"She came to my apartments in the McCoy Hotel and demanded \$50 which she asserts she advanced me on Los Angeles beauty business is on the bum in El Paso. I had but \$20 cents."

"Excuse me," she said. "Certainly," I said. "Then she raised her skirts. There was a flash of silk, then steel, and trickling blood, with police in the anticlimax."

The case was dismissed.

Dr. Coger went to El Paso to establish another link in his chain of institutes when Mrs. Fox followed, he says.

**ELUDE THEIR FRIENDS.**

Newly-married Young People Start on Wedding Journey—Destination Unknown to Relatives and Guests.

Following a wedding breakfast at Christopher's early yesterday morning, Caesar Castro, widely-known here as an importer of Italian goods, slipped away with his bride, who was formerly Miss Nita Guio, daughter of Mrs. Narciso Santos, No. 1224 Magnolia avenue, and left for parts unknown to the young persons themselves.

The wedding occurred at 3:30 yesterday morning at St. Thomas Cathedral. The young bride, being given away by her uncle, Louis Santos, Jr., French Consul in this city. The groom is the son of the former Italian Consul agent here.

are the joke of the whole country, so that it would be the most expensive thing the city can do to appoint a commission of competent men and to pay them something. He gave it his opinion that competent men engaged in government work can be found who do not find it necessary to follow any kind of a calling, who would be glad to take up the harbor work at a moderate salary and grant cuts it to the end.

The report above referred to, in addition to the appointment of the three commissioners, favored authorizing them appoint a harbor engineer and harbor attorney, whose salaries should be fixed by the City Council. He met opposition from Councilman Black, who thought that if they had all other powers they should also have power to set salaries.

The proposition to create a harbor zone, composed of the territory in the former cities of San Pedro and Wilmington, together with all the lands of the I. & N. R. Co. in the harbor zone, met with general approval. This amendment it is distinctly stated that the harbor zone shall have no jurisdiction or authority whatever within said zone.

Mrs. Clara Shortridge Foltz presided in the meeting. The letter of the Harbor Investigating Committee, declaring for the election of the three commissioners.

All these things were talked over informally, but as the whole committee was not present it was decided to give expression to no opinion except as an individual way. Another meeting will be held tomorrow afternoon at 2 o'clock, when an effort will be made to have the entire committee present.

**Open All Night.**

agreed to any limitations being placed upon the license for which the community is receiving nothing. Thus the vote was two and two on the ordinance did on its second meeting.

Williams left the meeting with a great writ large upon his brow, because of his position, refused to leave the outcome of the vote. In communication which accompanied the ordinance several weeks ago, City Attorney explained that many of the ordinance's provisions had been taken from the carload driving to the coast condition of chauffeurs who really acquired their jag foundations in the third-flooring in Los Angeles in the evening, and when the resorts closed at 1 o'clock found their way to the "Country Club" at Vernon and the other sections of the coast, accidents occur between 1 and 2 o'clock in the morning.

**THEY'RE FLOCKING NOW.**  
Thousands Tourists Arriving Daily from the East and Several Thousand from the North.

With 1000 persons arriving daily from the East and 300 and 350 from the North, the tourist season is at its height. The railroads are daily running extra sections of their through trains.

Next month the average daily arrivals will be considerably increased by the arrival of the fast Lake City Mid-Winter Excursionists. Thirty-four coaches are promised, about 1000 persons in all, with a report that the ultimate total will be 1500. The first excursion train, ten coaches, is to leave Salt Lake City February 2 and will arrive here at 10 o'clock in the morning. They are expected in the evening of February 2.

**GOOD STRETCH DONE.**  
Construction Engineer Hopes Completion of Road Between Mecca and Brawley.

Construction Engineer C. H. Taylor of the Los Angeles-Cotton-Trunk Overland Road, Highway Authority, reported yesterday at the weekly meeting that the thirty-three mile road between Mecca and Brawley has been completed and that he now has his two gangs, with eight teams, at work filling up and spicing the place.

At the next meeting of the auxiliary the matter of securing further subscriptions to the \$100,000 fund for completing the road probably be taken up. There is now \$10,000 in the fund, all collected by the fair-holders.

**BANISHMENT AN PUNISHMENT.**  
Young Society Woman in Outrage for Two Years Because the Man Checks—Father Wealthy.

Banishment from the city with serving a two-year term of probation was the punishment given Mrs. Nina Louise Adams, daughter of a wealthy Chicago business man, by Judge M. McCormick yesterday. She had pleaded guilty to having passed a fictitious check for \$10 and promised to return it given another chance. Before he sentenced Mrs. Adams was presiding socially.

Her home for the next two years will be Pasadena. The night life of Los Angeles is barred to her. No rides are taboo, and she must abstain from liquor and cigarettes. She will be with the family of J. R. Kernan, according to Probation Officer DeLoe, to whom she must report at state intervals.

Mrs. Adams was represented by Attorney H. Graham Beattie, who had supervision over her pending the hearing of her application for probation. She told the court her father suffered from a nervous breakdown. The Pasadena Building Material and Construction Company of Chicago, give her an allowance of \$15 a week. Hiding her whereabouts, washed his hands of his daughter. When she was arrested he refused to go to the aid and told the police he had no knowledge of her whereabouts.

**WITH EARMARKS OF YELLOWBACK.**

**Important Capture of Three Alleged Crooks.**

**Small Quantity of Stolen Articles Recovered.**

A medium, a mysterious negro, with a case and grips, about 100 pounds of jewelry and toilet articles, a small number of articles of clothing, an expensive violin and a bottle of champagne are included in the arrest of R. A. Gray, 30 years old; Fred Bishop, 32, and Charles Ewart, 24, whose incarceration promises to clear up about twenty-five robberies and sneak-thief cases committed in this city and South Pasadena.

The three men were arrested by Detective Butler, Fitzgerald, Dixon, and Cherry. They were taken to the police station, in two rooms at 2024 East Fourth street. A copy of the report was added to the story by the confession of the men and admission to the detective by Mrs. Merick Reynolds, 70, of Wilton place.

Gray was examining and recovering some of the jewelry and clothing Mrs. Reynolds declared that her home was robbed the night of the 20th, hoping to recover her property and discover the thief. Reynolds told the detective a woman told her a young man, accompanied by a negro, stole her jewelry and other articles.

"It is that colored woman you saw when you were arrested," Mrs. Reynolds angrily asked.

"I don't have a colored woman," she replied.

Reynolds Gray has a young son named for whom the police are searching. It is believed he was taken from her, for many years, from different houses.

Gray says he is the son of a woman named Gray, and that his mother died in 1900. He was born in 1900, and his mother died in 1900. He was born in 1900, and his mother died in 1900.

**SALARY IS NO OBJECT TO HIM.**

**RESIGNS LUCRATIVE POSITION TO GIVE SERVICE.**

President of Board of Public Utilities Quits as Such But Will Continue as Member Until He Is Ready to Take Trip to Europe. His Service Praised.

Thomas Foulkes resigned as president of the Board of Public Utilities yesterday afternoon, and Frederick Freeman Wheeler was elected to the position, which carries a salary of \$400 a month.

Foulkes will not leave the commission for the present, and will step down from the position with a salary of \$1000 a year to take one where he will give his services to the city. This is the role that Wheeler has been filling. He has given practically all of his time to the work of the commission since he was appointed about five months ago.

President Foulkes made a statement toward the close of the session. He said:

"When I accepted the responsible position of president of this board, I did so with the understanding that it was for four or five months. I was also under the impression that my term as commissioner on the board expired January 1, 1913, and accordingly made arrangements for a trip to Europe in April or May of this year. However, I found my term will not expire until January, 1914, and, although very much disappointed in my anticipation of a pleasant trip abroad, I felt it was my duty to remain with the board and lend all possible assistance toward the solution of the many important and difficult problems in which all the citizens of Los Angeles are so vitally interested.

"I have at this time a very efficient staff of engineers, accountants, collectors and computers and a very competent and painstaking secretary. In view of the fact that we have our work well in hand, I desire to tender my resignation as president of the board to take effect February 1, and to nominate Frederick Freeman Wheeler as my successor for one year. I will remain with the board as commissioner and give Mr. Wheeler all the assistance possible until I decide to sever my connection with the board to make my trip. In conclusion I want to thank the board and my friends for their kind and considerate treatment at all times."

Commissioner Watkins expressed the appreciation of the commission for Foulkes' work in taking the position of president when there was a lack of organization and having brought about a thorough systematization and efficiency in all departments. Commissioner Wheeler warmly seconded these sentiments.

After Wheeler's election he declared he will give his best efforts to the demands of his position.

**POSTOFFICE CLERK ARRESTED.**

**Inspectors Find Furnished Letters on Suspected Man. Who Says He Needed Money 'To Get Around.'**

Ray L. Thompson, a clerk in the city division of the general postoffice, was taken to the County Jail charged with the theft of letters from the postoffice. He was arrested by inspectors J. A. Roberts and C. R. Rogers. Thompson was found with a large number of letters in his possession. He said he needed money "to get around."

—NEW—

**Embroideries**

For Spring and Summer

There is always a charm about the word NEW, and when it refers to embroideries it commands the attention of all women. Our collection of spring embroideries is especially attractive. It comprises the newest designs in Flouncings, Bands, Edges and Galloons; made on Voile, plain crepe, Swiss, batiste and flake crepe. Shown in white or champagne.

Particular mention is made of our Novelty Flouncings With Bands to Match

It is hard to accurately describe the superb beauty of these fine embroideries—only a personal view can give you an adequate idea of their attractiveness. They are shown in either white or champagne. Some are self colored embroidered; others are embroidered in beautiful Persian or Oriental colorings. Some of the handsomest styles are shown in beautiful borders effect.

SEE DISPLAY IN BROADWAY WINDOW.

We offer several specially priced lots of EMBROIDERIES

which include: 17-inch Flouncings, Connet Cover Embroideries, Connet Edges, and dainty sets of embroideries for trimming infants' garments.

Seiler, Jr. and Gurney Newlin.

and San Diego being abolished. The  
four-year term of Collector Blake at  
San Diego, expired on the 15th inst.,  
and he has not been reappointed, it  
being understood that the San Diego  
office would soon be recognized of-  
ficially only as a part of the Los An-  
geles district with Collector Pendleton  
in charge. The roster for the coming  
year just issued by the Treasury De-  
partment makes no appropriation for  
the salaries of the collectors at either  
San Diego or Eureka. Nor is there  
any increase in the pay of Collector  
Pendleton, the maximum figure for  
which is \$5000.

It is understood that Collector  
Blake will be retained in charge of  
the San Diego office, sending all of  
his reports direct to Los Angeles as  
the central office, instead of to Wash-  
ington, as under the present system.  
It will also be necessary to bring ad-  
ditional help from the San Diego to  
the Los Angeles office.

A strenuous effort has been made by  
the commercial bodies and others in  
San Diego to prevent that collection  
district from being wiped off the of-  
ficial map, but it is understood that  
President Taft and Secretary of the  
Treasury MacVeagh are determined  
upon the move.

The new arrangement will reduce  
the number of collection districts in  
the United States from 174 to sixty,  
and effect a reduction in the cost of  
administration amounting to hundreds  
of thousands of dollars. The change  
is in line with the recommendations  
of President Taft that there can be  
made many changes in the official  
roster of Federal officers without loss  
to the service.

The abolition of the San Diego of-  
fice has been a part of every tentative  
plan. The office at Eureka has never been  
a paying investment for the govern-  
ment, although under the compensa-  
tion provisions of the statutes, the  
collector last year made within \$7  
as much as Collector Blake at San  
Diego. The maximum in each case  
is fixed at \$5000 a year.

**WHERE'S THIS HELLO GIRL?**

She is and she isn't missing. Ac-  
cording to Various Reports—May  
Have Gone to Nurse Mexicans.

Is Esther Belle Steele, erstwhile  
telephone operator on the Alhambra  
Sunset exchange, missing or isn't she?  
Did she leave her place and depart  
for Mexico to become a Red Cross  
nurse, or is she quietly sequestered at  
some friend's home in this city? There  
appears to be several opinions on the  
subject and some of those chiefly con-  
cerned appear to have more than one  
opinion.

Mrs. Minnie Steele, mother of the  
girl, reported the supposed disap-  
pearance to the police yesterday. At the  
residence, No. 621 West Eleventh  
street, however, it was vigorously de-  
nied that any member of the family  
is missing. A report from Alhambra  
sets out that Miss Steele was em-  
ployed as an operator there up to  
Saturday of last week, but that she  
has not been seen since. The mother's  
belief as to her daughter having  
gone to Mexico is based upon bits of  
a conversation overheard on the tele-  
phone in which Miss Steele is said to  
have been making plans with another  
telephone girl to go to the southern  
republic as nurses. All the operators  
with whom the girl is known to have  
been acquainted were at their places  
yesterday and disclaimed any knowl-  
edge of her whereabouts.

It appears that Miss Steele resided  
at Alhambra, during her stay there,  
with a family named Pasch. Mrs.  
Steele called there last Saturday but,  
while she went to the postoffice for a  
moment, the girl slipped away and is  
thought to have come to Los Angeles.  
Constable Parker of Alhambra is of  
the opinion that she is still in the city.

Man Alleged to Have Raised Money  
by Raising Bills Is to Be Given  
Hearing—His Record.

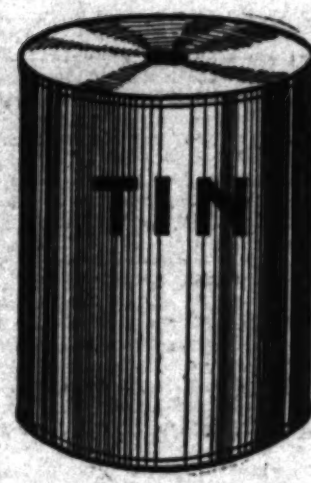

Frank Walker, arrested here for the  
San Francisco police on a charge of  
having raised a number of raised bills  
on Alhambra, will be given a hearing  
this morning by United States  
Commissioner Williams.

Special Agent Haden of the Treasury  
Department, who investigated the case  
of Walker yesterday, asserts he was  
sentenced from this county in 1905 to  
two years at San Quentin on a similar  
charge, and that Walker is a member  
of the gang that has been making a  
specialty of passing bills raised from  
\$1 to \$20, on merchants at various  
Pacific Coast points.

**WIPES SAN DIEGO OFF  
THE COLLECTION MAP.**

A RADICAL revision of the cus-  
toms collection district map will  
be effected in California by the  
forthcoming report of President Taft  
on the general subject of a more econ-  
omical administration of the Federal  
government. The report has been in  
process of preparation for the last  
two years and will automatically be-

Spring Hats

—Decidedly different—  
and indescribably beau-  
tiful—shapes and sizes that  
are becoming, sensible,  
conspicuously attractive  
without being glaringly  
conspicuous—  
—And such a variety! Master-  
pieces from such famed sil-  
lars as Hylard, Crosby, Bur-  
gesser, as well as many notably  
clever creations from Bullock's  
own designers. Close to a thou-  
sand beautiful new street hats  
already in—Second Floor.

**The New Free**

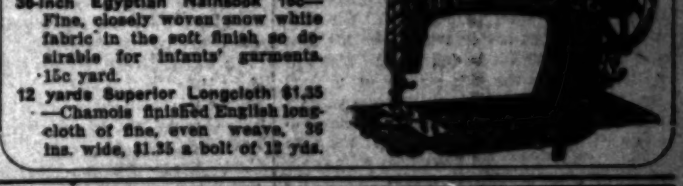

—Is the century's most wonder-  
ful sewing machine.  
—The New Free Sewing Ma-  
chine is being recognized by  
hundreds as the premier sewing  
machine of the age—  
—It is a mechanical wonder  
—that serves with remarkable  
ease and accuracy.  
—The new Rotocut movement  
—The new link take-up—  
—The Free's ball bearings—  
—The splendid body—  
—The self-locking drawers—  
—The rigid feed—  
—These are merely a few of the  
features that make the New  
Free the year's most extraordi-  
nary sewing machine—  
—One thing is certain, no one  
who is anticipating the purchase  
of a sewing machine should fail  
to see the New Free and investi-  
gate the term-plan of easy pay-  
ments.  
—The New Free is the only in-  
sured sewing machine.

Five High Class Events  
Carded for Saturday  
Factors Is to Be the  
Event for Trotters.  
First Meet of Season  
Be Held Here.

BY GARY OLIVER.  
Local horsemen are looking forward with a great deal of interest to the meeting of the Los Angeles Trotting Club at Exposition Park on Saturday. It is not expected that the event will be a great success, but it is expected that it will be a very interesting one.

There are to be but five events on Saturday and as one of the factors is to be the event for trotters, it is not expected that the event will be a great success, but it is expected that it will be a very interesting one.

The event is expected to be a very interesting one, and it is expected that it will be a very interesting one. The event is expected to be a very interesting one, and it is expected that it will be a very interesting one.

## WATER SYSTEM IS ACQUIRED.

**Riverside Will Dominate Things on February 1.**

**Highway Commissioners Tour the Country.**

**Five Hundred Cars of Oranges Are Shipped.**

**Riverside, Jan. 22.**—The city of Riverside will begin the actual business of handling domestic water on the first day of February, although the voters authorized the issuance of bonds only last Tuesday, and it will be three months at best before the bonds can be sold. The decision to assume possession of the domestic water system of the Riverside Water Company was arrived at yesterday, after the Council had considered the recommendation of Mayor Peters that the city take possession of a clause in the contract of purchase admitting of such action. It is provided that in case the city fails to sell its bonds by June 1, it will deliver back to the company all the property received and account for the net income. The Mayor estimates that the city will make a net profit of about \$400 per month, or \$4,800 per year, by taking over the system at once, after deducting the 1-1/2 per cent. interest on the bonds. The city will pay on the purchase price, \$175,000, extending from the date of taking possession of property until the final payment is made. The Board of Public Utilities was instructed to assume possession of the system, under the terms of the contract, but no action was taken until reference to the other two systems is acquired, for the reason that the net profit would not justify such action at the present time. One of the most important steps looking to the calling of a bond election for a system of county highways since a commission was named, was taken today when a conference was held between the Board of Supervisors and the County Highway Commissioners. It was decided that the commission should start at once upon a comprehensive study of the good roads situation, and that after the report is completed, it should be presented to the Board of Supervisors and the County Highway Commissioners. The commission should start at once upon a comprehensive study of the good roads situation, and that after the report is completed, it should be presented to the Board of Supervisors and the County Highway Commissioners. The decision to assume possession of the domestic water system of the Riverside Water Company was arrived at yesterday, after the Council had considered the recommendation of Mayor Peters that the city take possession of a clause in the contract of purchase admitting of such action. It is provided that in case the city fails to sell its bonds by June 1, it will deliver back to the company all the property received and account for the net income. The Mayor estimates that the city will make a net profit of about \$400 per month, or \$4,800 per year, by taking over the system at once, after deducting the 1-1/2 per cent. interest on the bonds. The city will pay on the purchase price, \$175,000, extending from the date of taking possession of property until the final payment is made. The Board of Public Utilities was instructed to assume possession of the system, under the terms of the contract, but no action was taken until reference to the other two systems is acquired, for the reason that the net profit would not justify such action at the present time. One of the most important steps looking to the calling of a bond election for a system of county highways since a commission was named, was taken today when a conference was held between the Board of Supervisors and the County Highway Commissioners. It was decided that the commission should start at once upon a comprehensive study of the good roads situation, and that after the report is completed, it should be presented to the Board of Supervisors and the County Highway Commissioners. The commission should start at once upon a comprehensive study of the good roads situation, and that after the report is completed, it should be presented to the Board of Supervisors and the County Highway Commissioners.

**Riverside, Jan. 22.**—The city of Riverside will begin the actual business of handling domestic water on the first day of February, although the voters authorized the issuance of bonds only last Tuesday, and it will be three months at best before the bonds can be sold. The decision to assume possession of the domestic water system of the Riverside Water Company was arrived at yesterday, after the Council had considered the recommendation of Mayor Peters that the city take possession of a clause in the contract of purchase admitting of such action. It is provided that in case the city fails to sell its bonds by June 1, it will deliver back to the company all the property received and account for the net income. The Mayor estimates that the city will make a net profit of about \$400 per month, or \$4,800 per year, by taking over the system at once, after deducting the 1-1/2 per cent. interest on the bonds. The city will pay on the purchase price, \$175,000, extending from the date of taking possession of property until the final payment is made. # Long Beach Entrance to Greater Los Angeles Harbor.

## Big Profit-Sharing Sale Industrial Harbor Lots

—On Saturday morning, January 25th, the Harbor Sales Department of the Los Angeles Investment Company will give the interested public an unequalled opportunity to inspect the great Harbor of Los Angeles.

—For this special occasion CAR FARE, A TASTY LUNCH AND EXTENSIVE BOAT RIDE ABOUT THE HARBOR will be furnished for ONLY 25c. The boat ride covers the entire Harbor, both the San Pedro and Long Beach Channels, passes the Mammoth New Bascule Bridge and through the Million Dollar Graig Shipbuilding yards at Long Beach.

## Small Investor's Opportunity—Factory Sites \$500

—An important part of Saturday's excursion will be the inspection of the Inner Harbor Tract, which contains the choicest industrial and factory lots now on the market in the Harbor District for \$500 to \$1000. The Company is placing this valuable Harbor Industrial Tract before the small investor for a rapid sale at LOW PRICES. The opportunity to acquire choice lots in the Inner Harbor Tract will not last long. Prepare to go on this big excursion Saturday.

Special cars leave the P. E. station, Sixth and Main streets, at 10 a.m., Saturday, January 25th, 1913. Call for tickets at the office of the Los Angeles Investment Company, Broadway at Eighth, any time before Friday, 2 p.m. After January 25th, tickets will be 50c.

## FOR A FRANCHISE.

**Electric Asks for Right to Build Line to Connect With Southern Pacific at Santa Ana.**

**SANTA ANA, Jan. 22.**—At the meeting of the City Trustees last night an application was received from the Pacific Electric for a franchise for a track running from the North Main street electric line on to the Southern Pacific tracks at Santa Ana. With this connection, after the Pacific Electric line is built, the Southern Pacific can handle freight from Orange. The city has agreed to grant the franchise, but the Pacific Electric must first build the line. The city has agreed to grant the franchise, but the Pacific Electric must first build the line. The city has agreed to grant the franchise, but the Pacific Electric must first build the line.

**LOS ANGELES STOCK EXCHANGE**

Union Provident Steady—California Midway Slightly Stronger—Market Reopened.

Although the volume of business was not particularly large, activity was in a broader field again yesterday. Union Provident sold where it was the greater part of the previous day—\$19 7/8. Forty shares went for one morning's sale; fifty shares changed hands in the afternoon. The close showed very little change from Tuesday. California Midway opened at 17 cents and gained an eighth. United Oil has been weak lately; 25 shares changed hands at 25 cents. Amalgamated sold at 77½. Associated Petroleum companies at 67½ and preferred at 197. Only small sales of these stocks were recorded. One thousand New Pennsylvania Petroleum was reported off-board at 51 cents. National Pacific was weaker. The Continentals Oil Company paid a dividend of 1 penny per share today.

Consolidated Mines sold at 4¼.
